WEBCAMS

VoIP Starter Kit

With the Typhoon VoIP Starter Kit you can use the internet to telephone and videoconference inexpensively. The Set includes a smart webcam, when it gets dark the LEDs light up, and a lightweight headset with in-built microphone.

EASYCAM

Clamp the Typhoon EasyCam USB2.0 VGA 1.3M on the Notebook or desktop, it allows you to use in most areas. The 350K pixel CMOS sensor provides sufficient quality for most web uses and chat applications. Capture video in near 30 frames per second, and at resolutions up to 1024 x 480. Comes with USB 2.0 interface for easy Plug-n-Play installation and auto image controls for easy camera use. Ideal for use as Web Camera and in most Computer camera applications.

HEADSET WITH VOLUME CONTROL

Lightweight headset with thin boom microphone for optimum positioning during recording. Thin headband reduces the total weight for comfortable use during prolong period. Adjustable and thin, the headband fits many sizes. The ear pads are made of sponge for soft and comfort. Ideal for most computer uses such as video conferencing, and gamings.

EASYCAM USB 2.0 VGA 1.3M - Features

- CMOS Sensor; 350 Kpixel Hardware, 1300 Kpixel Software interpol.
- Approximately 30 Frame/second full screen image at 640 x 480 resolution, with no mosaic image
- No delay image in general light conditions
- USB2.0 interface, quicker speed and clearer imagine
- USB2.0 Maximum transmission speed up to 480Mbps
- Internal image compression engine, maximum 2-7 times
- Auto-exposure control, Auto-plus control
- Auto B/W balance adjustment
- Super digital image control function, i.e. color saturation, contrast, gamma sheet adapt outside and door security.

EASYCAM USB 2.0 VGA 1.3M - Specifications

- Maximum Resolution: 1280 × 960 (VGA)
- Image Resolution: 640 × 480 (VGA) 30 Frame/second
- Image Sensor: 1/4 CMOS VGA sensor
- Lens: 3.6mm 6mm
- Focus: 30mm ~ infinity
- Color: 24bit.CCIR656
- S/N: > 42dB
- Operating voltage / Current: DC5V / 65mA
- TWAIN Driver: Support all kinds of video chatting, video-conference software.
- VFW Interface: Support capture dynamic and static imagine
- Direct Show: Support long distance dynamic immediate transmission.

HEADSET WITH VOLUME CONTROL - Features

- Lightweight Headset with cushioned ear pads and boom microphone
- Boom microphone with flexible arm for optimum input positioning with noise-canceling and omni-directional features
- Thin headband for lightweight support and pressure distribution with adjustable length
- Comes with inline volume control for easy adjustments

HEADSET WITH VOLUME CONTROL - Specifications

- Microphone
  - Dimension: 9 mm diameter x 7mm
  - Frequency response: 20 - 16000Hz
  - Sensitivity: -54dB ± 3dB

- Headphones
  - Drive unit: 27mm diameter w/ferrite magnet
  - Impedance: 32 Ohms
  - Frequency response: 50 - 16000Hz
  - Sensitivity: 95dB ± 3dB at 1.0cm 0.3v
  - Maximum input power: 100mv
  - Cord length(CM): 180 ± 3%
  - Volume control(optional): Yes

System Requirements

- Intel® Pentium® III or later
- 128MB of System RAM or more
- One available USB2.0 port
- Windows® 2000 / XP operating systems or later
- Over 20MB of free hard disk space
- CD ROM drive for driver and software installation
